Governance | Risk | Compliance

nxtAudit

A tool for hassle-free Auditing

nxtaudit.com

GRC SUITE delivers simple, intuitive, and robust real-time insight on strategic risks, operational and business risks, IT and cyber risks, third-party risks, AML compliance concerns, and Environmental, Social, and Governance (ESG) risks which uses emerging technologies at its core. We help organisations to streamline the development of GRC processes and manage them in day-to-day operations by leveraging technology like Block Chain, Low/ No Code Artificial Intelligence (AI) and Machine Learning (ML) to improve risk management and compliance.

We also offer customised RegTech Solutions to different industry vertical ensuring businesses are regulatory driven.
